

Helium - Pure nitrogen - Hydrogenated nitrogen <5% and CO²

Nitrogen regulator 45 bar

Réf **M0010050**

Nitrogen and Nidron regulator
(For Gaz Nidron 5 Ref: M0061190)
Type C (not right) + 1 1/4 Flare M
connector + 1 5 / 16M1 / 4F connector
Operating pressure 45 bar.

Recommended for testing and
researching refrigerant leaks.

Characteristics

Operating temperature range (-20 ° C <> + 60 ° C)

Gas: Helium - Pure nitrogen - Hydrogenated nitrogen <5% and CO²

Operating pressure 45 bar

Outlet fitting: 1/4 SAE 45

Transformer Fittings: 1/4 SAE -> 5/16 SAE 45

Maximum flow 50 M3 / H

Accessory not delivered

HP hose with valve: M0010060

Or

Exist in full box version M0060020
