

**Nitrogen pressure
regulator box 50 bar**Ref **M0061010**

Helium Regulator, Pure Nitrogen, Hydrogen Nitrogen <5% and CO² - Type C
Recommended for testing and researching refrigerant leaks.

Characteristics

Operating temperature range (-20 ° C <> + 60 ° C)

Gas: Helium - Pure nitrogen - Hydrogenated nitrogen <5% and CO²

Operating pressure 55 bar

Outlet fitting: ¼ SAE 45

Transformer Fittings: ¼ SAE -> 5/16 SAE 45

Maximum flow 50 M3 / H

Accessory delivered

55 bar hose with shut-off valve : M0010060
